The Lakeshore General Hospital Foundation raises money to help pay for hospital projects not paid for by the government. -

The Lakeshore General Hospital Foundation raised more than half a million dollars at its annual ball Nov. 12.

More than 300 people attended the Brazil-themed ball at the Montreal Airport Marriott In-Terminal Hotel. The \$502,200 will be used to merge the cardiac-care and intensive-care units at the hospital in Pointe-Claire. Housing the two in one state-of-the-art unit will save valuable minutes during emergencies.
