# ABOUT THE DRAGON BOAT RACE

**Saturday, August 23**

Registration: 11:00 am  
Races begin: 12:00 pm

Teams of paddlers take the waters of the Lachine Canal and experience the adrenaline and thrill of a race! This unique team-building activity is great for family, friends and colleagues.

Teams consist of 20 paddlers & 1 drummer.

Dragon Boat racing requires no previous skill. It is easy to learn, promotes teamwork, health and exercise, and is an activity where men and women compete side-by-side toward the same goal. Regardless of age or physical condition, once a paddler is in stroke, they are contributing to their team.

At the event, we also encourage all teams to tailgate! Get into the spirit of the event – bring a tent, food, and drinks, and have a blast cheering on all the teams. There will also be a prize for the best-dressed team so get creative – no costume is too silly for this event.

With over 3,000 cancer patients treated annually, funds raised will help fund state-of-the-art equipment and massage therapy programs to treat and care for our ever-growing West Island community.

## MISSION AND VISION

The Lakeshore General Hospital Foundation is a non-profit organization established in 1964 dedicated to supporting the enhancement of patient care at the Lakeshore General Hospital. The Foundation funds programs and projects to advance patient care and research. Our aim is to fund the acquisition of state-of-the-art medical equipment, support significant upgrading of our hospital facilities, and assist in supporting programs and specialized training for the professional staff.

### **Mission Statement**

To inspire, encourage and engage our community to invest in helping elevate the quality of healthcare at the Lakeshore General Hospital and improve the lives of all those who come through our doors.

### **Values**

- Accountability
- Collaboration
- Excellence
- Integrity
- Trust

# HISTORY

## of the Lakeshore General Hospital Foundation

### A Walk Through History

In the winter of 1959, the nine-member Lakeshore General Hospital Study Committee, held their first meeting. The goal of these West Island visionaries was to determine the most efficient way of getting the facility built. The LGH was incorporated the following summer and the land on which our hospital stands was purchased with a gift from private donors.

In 1960, the committee officially became the Lakeshore General Hospital Foundation. During the spring of the following year, a capital campaign was launched to help cover the cost of the planned 182-bed hospital and by winter, the campaign was completed. An impressive \$2.5 million from corporate and public donations was raised.

### An Anchor in the Community

As it was being built, you could see the anchor shape of the hospital which represents its true role in a community bordered by waterways. The original logo of the Foundation followed the same shape.

The construction of the hospital cost approximately \$6.5 million and began in the spring of 1963. The Lakeshore General Hospital welcomed its first patient in 1965.
