

GERIATRIC CHAIRS

Requesting a total contribution of \$6,182.00 for 5 chairs

Adding more geriatric chairs to the Lakeshore Hospital's geriatric department (4North) will greatly enhance patient comfort and safety, especially for those with limited mobility or requiring long periods of seated support. These specialized chairs promote better posture, reduce the risk of pressure sores, and assist staff with safer patient transfers. Increasing the number of geriatric chairs ensures that each patient has access to proper seating, supporting both their physical health and overall well-being during their stay.
